

## Mary C. Boardman, PhD

Mary Boardman is currently a data scientist at PatientPop and has been teaching analytic methods at the University of South Florida since 2015. She transitioned to data science from academia to inform data-driven decision making on a practical level.

## Zach Day

Zach comes to the data science field following experience in US Army Intelligence and marketing analytics at Salesforce, where he is currently employed. He plans on using his new data science skills to focus on addressing issues related to climate change.

## John Pette

John Pette turned to data science due to an insatiable curiosity about the world and need to learn how things work. He worked for over 13 years as a diplomat and internal management consultant with the U.S. Department of State. He has lived in four countries and visited over 30.
